Yesterday (Tuesday)			

- All forms on the "Complete forms" page are now listed as "draft"
- When filtering by role on the "add new" pop up of the users page, the search prompt now says "Search by role..."
- Users no longer have to select their tenant manually on the allo login page. You can simply log in

- Custom form names can now be seen in the item column on the "Complete forms" and "Submissions" pages
- The following columns have been added to the location template and the allo screen:
 - "Sub location"
 - "Postcode"
 - "Location X coordinate"
 - "Location Y coordinate"
 - "What3words"

Note* **Users are encouraged to export the new location template**

- The create new & edit pop up on the location page now reflects the location template

Project data
Navigate to the "Project data page" and click on "Location"

Import/Export
Click "export file to excel" to get the latest template

The screenshot shows the 'allo' web application interface. On the left is a dark sidebar with navigation options. The main content area displays a 'Locations' table with the following data:

Location name	Sub location	Post code	Location x coordinate	Location y coordinate	What3words
Test location 1	Opst - KFC Gurjar	Nitesh	X:6666	Y:6666	
Test location 22	Opst - KFC Gurjar	Nitesh	X:6666	Y:6678	
Total 3					

Below the table is an 'Excel template' with the following structure:

Location name	Sub location	Post code	Location x coordinate	Location y coordinate	What3words
Test location 21	Opst - KFC Gurjar	Nitesh	X:6666	Y:6695	4956
Test location 22	Opst - KFC Gurjar	Nitesh	X:6666	Y:6678	4967

5. Bug fixes 🤗

Admin:

- Admin can now successfully add a plant to an allocation activity manually
- Admins can now undo any changes they've made to the settings of a custom by clicking the cancel button
