allo release 18.05.23 (allo 2.1.4)

Last updated by | Irone Egbejule | 18 May 2023 at 10:36 BST

1. Introduction 👋

The team have been busy working on new features and bug fixes that have been affecting the functionality of **allo** for our users. Help and support on how to use **allo** features is available on our website https://heyallo.co/how-to-guide/ ⧉

2. Overview 💬

We have undergone some bug fixes & added some new features to improve your experience. Some of the changes include a fix of filters on the submissions page, updates to the "Plant and equipment" dataset and some UI enhancements to help you navigate **allo** easier.

3. Impacted users 👷

- Admin
- All users

4. What's new in allo 📢

- The "Plant" dataset on the "Project data" page has been renamed **"Plant and equipment"**

- The following columns have been added to the "Plant and equipment" template and the corresponding **allo** screen

  - "Plant owner"
  - "Plant ID"
  - "Plant category"
  - "Plant description"
  - "Manufacturer"
  - "Plant type"
  - "YOM"
  - "Engine powers"
  - "Engine"

Note* **Users are encouraged to export the new plant and equipment template**

Project data
Navigate to the "Project data" page
and click on "Plant and Equipment"

Excel template
The plant and equipment template
has 11 new columns

- The create new & edit pop up on the plant page now reflects the plant and equipment template

- The "Add widget" button on the reports page is now called "Add report"

"Add report"
The "Add widget" button is now
named "Add report"

5. Bug fixes 😍

Admin:

- Users can now edit the placeholder of the "Long text" field when creating a new form for the team
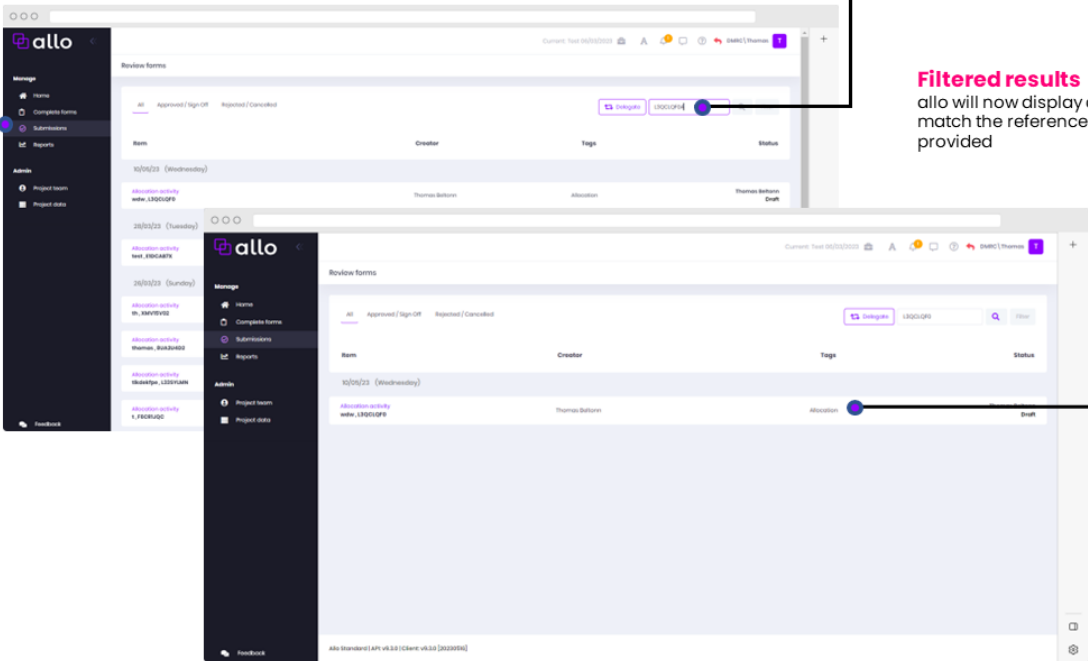

All users:

- When applying filters on the submissions page, users can interact with any activity without the filters resetting automatically
- Users can now search by reference number on the "Complete forms" and "Submissions" page

Page navigation
Navigate to the "Submissions" page

Reference number
In the search box, provide the reference number of an activity you want to see

Filtered results
allo will now display any activities that match the reference number you provided
