

allo release 27.04.23 (allo 2.1.2)

Last updated by | Irone Egbejule | 28 Apr 2023 at 08:34 BST

1. Introduction 🙌

The *allo* team have been busy working on some bugs that have been affecting the functionality of *allo* for our users. Help and support on how to use *allo* features is available on our website <https://heyallo.co/how-to-guide/> 📄

2. Overview 💬

We have undergone some bug fixes & made some tweaks to *allo* that will optimize your experience. Just some of these changes include a fix of issues concerning the admin role, tweaks to the reports page and some UI enhancements to help your navigation of *allo*

3. Impacted users 👤

- Admin
- Supervisors
- All users

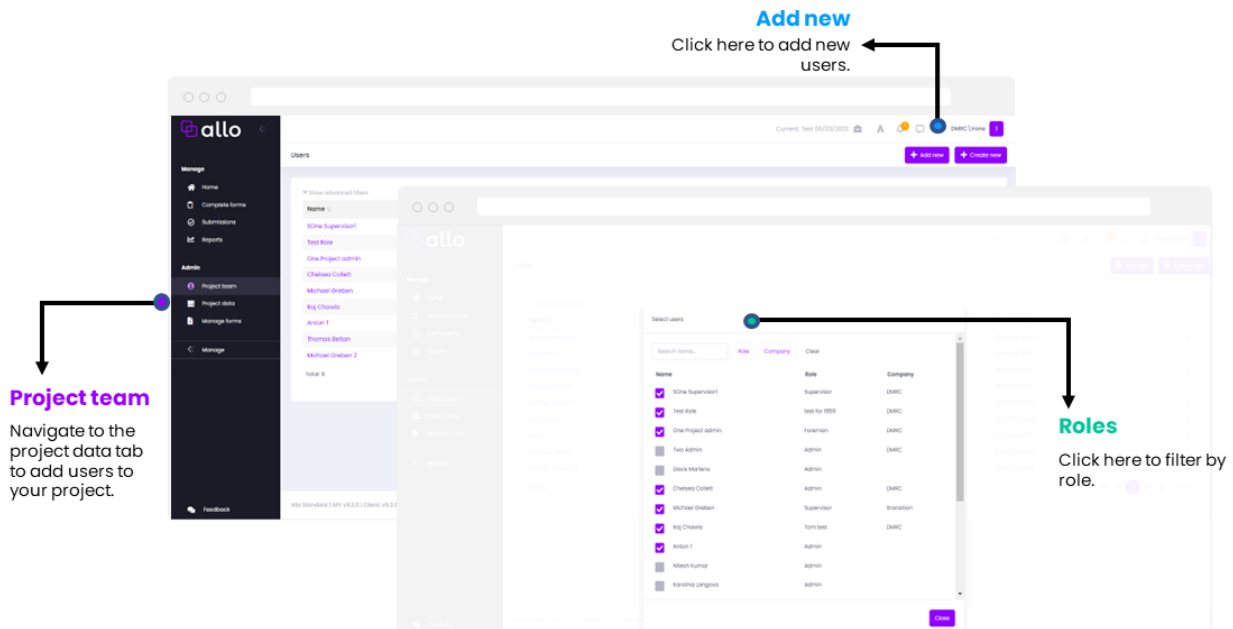

4. What's new in *allo* 🔊

- Admins are now the only default user who can **edit** or **delete** reports
- All users are now able to **view** reports
- New permissions added so users only see reports relating to their **project**

5. Bug fixes 🥰

Admin

- When creating a new form, users can successfully add options to:
 - Radio buttons
 - Dropdowns
 - Checkboxes
- Admins can now filter by "**Role**" when adding users to a project

Supervisors

- Users can now edit an allocation activity before submitting the form and the changes will automatically be reflected

All users

- We have added tooltips to all expand & minimize icons in allo
- "Form status" and "Allocation status" are no longer filter options on the complete forms page
